HAMZA AKBAR

Senior Frontend Developer | AI-Assisted Web Development

Peshawar, Pakistan | +92 305 2405430 | hamzaakbar166@gmail.com

PROFESSIONAL SUMMARY

Senior Software Engineer with 7+ years of experience developing business web applications using React, Next.js, Angular, and TypeScript. Work spans point-of-sale, store management, delivery, and transport applications. Strong experience in vibe coding and prompt engineering, supported by hands-on frontend development, REST API integration, debugging, and responsive design. Collaborates with product owners, designers, QA, and backend developers from requirements through release.

WORK EXPERIENCE

Senior Software Engineer Lead

Xumerz (Pvt) Ltd.

March 2024 - Present

- Develop React 18+ and Next.js 14+ interfaces for DropStore and Angular 18+ features for ZIPS WebApp, supporting store and delivery business applications.
- Build responsive layouts and reusable components with Tailwind CSS and shadcn/ui to keep interface behavior and styling consistent across products.
- Maintain frontend code across five monorepo applications: DropStore, Assigning, Delivery-van, ZIPS-LotBoard, and ZIPS-Manager.
- Implement server-rendered, SEO-friendly Next.js pages and contribute to application performance optimization and usability improvements.
- Participate in requirements analysis, design, implementation, testing, and deployment, coordinating frontend work with the wider development team.

Angular Developer

3S-Solutions (Pvt) Ltd.

January 2023 - February 2024

- Developed Sibme web application features using Angular 15+, TypeScript, JavaScript, HTML, and CSS.
- Translated interface requirements into Angular components and responsive page layouts to support consistent web experiences.

Angular Developer

Smsami.inc

May 2019 - December 2022

- Delivered frontend work across three projects: Point of Sale, Flyaway Hub, and Driveaway Hub, using Angular and TypeScript.
- Built single-page applications with NGXS state management, RxJS data flows, and RESTful API integration.
- Investigated production issues and delivered hotfixes; worked with backend developers on REST resources and caching strategies.
- Collaborated with product owners, project managers, QA, and UI/UX designers to break requirements into milestones and deliver features within Agile and Kanban workflows.
- Applied reusable design patterns and object-oriented programming principles to maintain frontend code and address architectural challenges.

PROJECTS

DropStore Product Suite

Xumerz | React / Next.js Developer

- Developed dynamic, server-rendered web interfaces using React 18+ and Next.js 14+, with SEO-friendly pages and responsive layouts.
- Used Tailwind CSS and shadcn/ui for consistent components within a monorepo that also includes Assigning and Delivery-van.

ZIPS WebApp

Xumerz | Angular Developer

- Built modular Angular 18+ components for ZIPS-LotBoard and ZIPS-Manager within a shared monorepo.
- Implemented responsive interfaces with TypeScript, HTML, and CSS; contributed to performance optimization and reusable frontend design.

Point of Sale (POS)

Smsami.inc | May 2019 - December 2022

- Developed frontend features using Angular 10 and TypeScript; implemented NGXS state management for the POS application.

Driveaway Hub (Motorway Express)

Smsami.inc | August 2021 - December 2022

- Contributed Angular 13 and TypeScript frontend development and implemented application state management with NGXS.

Flyaway Hub

Smsami.inc | June 2020 - December 2022

- Contributed to frontend development as an Angular developer within the project team.

TECHNICAL SKILLS

AI-assisted development: Vibe coding, prompt engineering, iterative implementation, AI-generated code review and debugging

Frontend: React, Next.js, Angular, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, shadcn/ui, responsive web design

Integration and testing: RESTful APIs, HTTP, Fetch/AJAX, browser DevTools, cross-browser testing, performance optimization

Architecture and tools: Monorepos, reusable components, NGXS, RxJS, Git, npm, Yarn, pnpm, Webpack, Babel, Agile, Kanban

Backend fundamentals: Client-server workflows and API integration; ongoing learning in .NET, Node.js, and Laravel

EDUCATION

Bachelor of Science in Computer Science

AUP, Peshawar | June 2016 - June 2019 | CGPA: 3.39

LANGUAGES

English, Urdu, Pashto - Fluent
